

# Smart Humidifier with Digital Display

This smart humidifier uses ultrasonic technology to efficiently humidify the air. It features a digital display for humidity levels and timer settings, with options for remote or touch control.

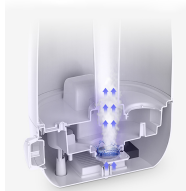

## ADDITIONAL IMAGES

## Overview

3 million + times of ultrasonic shaking water into nano water mist

The newly upgraded atomization system atomizes the filtered water molecules into nano water mist through high-frequency oscillation, which diffuses rapidly.

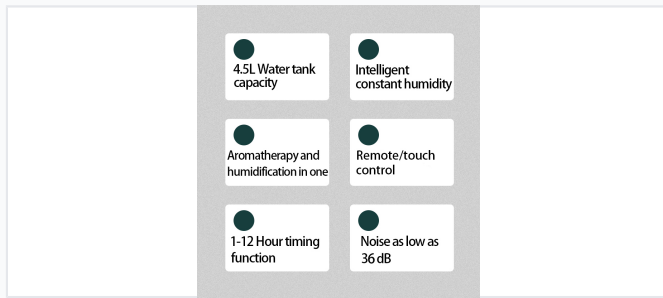

Upgraded ultrasonic system creates a fine nano-mist for rapid diffusion.

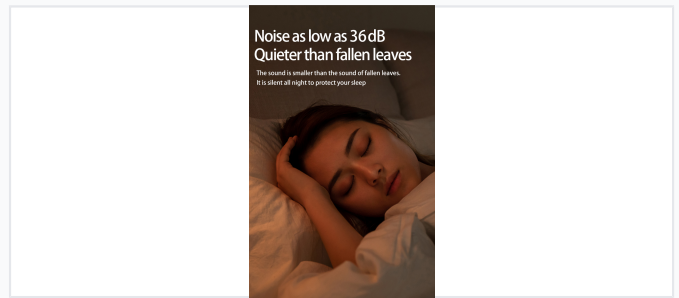

### Intelligent Ultrasonic Humidification

This smart ultrasonic humidifier is designed to enhance indoor air quality by efficiently converting water into a fine, nano-scale mist. Featuring a 4.5L capacity, it supports up to 24 hours of uninterrupted operation, making it ideal for bedrooms and offices. With integrated aromatherapy capabilities, digital humidity monitoring, and quiet operation, this device provides a comprehensive solution for maintaining a comfortable and healthy environment.

## Performance & Capacity

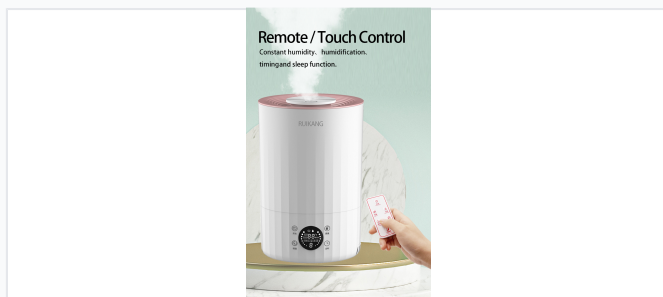

Large 4.5L water tank ensures up to 24 hours of continuous operation.

Ultra-low noise operation at 36dB for undisturbed sleep.

<b>Water Tank Capacity</b>	4.5 L
<b>Max Evaporation Rate</b>	300 ml/H
<b>Operating Noise Level</b>	36 dB

## Features & Controls

Dual control options via remote or touch panel for convenient operation.

Convenient top-filling design makes refilling easy and mess-free.

### Control Methods

Remote Control • Touch Control

### Key Functions

- Constant Humidity Mode
- Aromatherapy Diffusion
- 1-12 Hour Timer
- Sleep Mode
- Digital Display

## Technical Specifications

<b>Power Consumption</b>	28 W
<b>Voltage/Frequency</b>	110V/220V, 50Hz/60Hz
<b>Dimensions</b>	220 x 220 x 300 mm
<b>Material</b>	PP (Polypropylene)
<b>Color</b>	Pink and White
