Product Overview

Advanced Therapeutic Comfort

The RT6890 Smart Leisure Massage Chair is engineered for complete physical rejuvenation, utilizing a sophisticated L-style track and 3D human hand mechanism to provide precise, full-body relief. Designed with ergonomic principles in mind, it features an intelligent body scanning system that tailors the massage intensity and positioning to your specific shape. With specialized features like zero-gravity recline, heat therapy, and integrated music connectivity, this chair offers a premium, customizable relaxation experience suitable for any professional environment or high-end home setting.
