Product Overview

Smart Light Bulb Socket Adapter

This smart light bulb socket adapter transforms standard lighting fixtures into intelligent, automated solutions. Designed for easy installation, it supports remote control via Wi-Fi and features advanced microwave detection for automated lighting management. Perfect for enhancing energy efficiency and convenience in both residential and commercial environments.

Electrical Specifications

Input Voltage	240 V
Frequency	50/60Hz
Input Power	20 W

Smart Features

Microwave Detection Distance

6 m

Max Detection Range

Core Functions	Timing, Microwave Detection, Wi-Fi Enabled
----------------	--------------------------------------------

Physical & Durability

Average Life Span	8000 h
Product Dimensions	67.5 x 101.8 mm
Warranty Period	2 years

Compliance

Certifications

FCC • CA65 • RoHS • CE
