

Smart Pet Feeder with Camera

This smart pet feeder includes a built-in camera for remote pet monitoring during feeding. It allows scheduled and portion-controlled dispensing of dry food and features two-way audio.

Product Overview

Smart Feeding & Monitoring

This smart pet feeder is designed to provide consistent, portion-controlled feeding for your pets while keeping you connected. With an integrated camera, it allows for real-time remote monitoring, ensuring peace of mind even when you are away. The system supports scheduled feeding to promote healthy eating habits and includes advanced communication features for a complete pet care experience.
