Overview

Professional Indoor Grilling Experience

This smokeless electric Korean BBQ grill utilizes advanced 3D far-infrared heating technology to deliver authentic charcoal-roasted flavor without the mess of open flames. With 1300W of heating power and a 360-degree automatic rotating pan, it ensures consistent, even cooking for meats, seafood, and vegetables. Designed with a user-friendly, non-stick 30cm surface and a dedicated grease drainage system, it is the perfect solution for apartment living and indoor social gatherings.
