Product Overview

Professional Smoothie and Frozen Goods Storage

The BD-215F chest freezer is a high-performance cooling solution designed for the efficient storage of smoothies and other frozen inventory. It features a spacious 197-liter internal capacity equipped with an integrated fan system to ensure rapid, uniform cooling throughout. With its electronic thermostat and high-quality insulation materials, this freezer delivers precise temperature control and optimal energy efficiency for demanding commercial environments.

Technical Specifications

Total Capacity	197 L
Cooling System	Built-in Fan, Electronic Thermostat, Rapid Cooling

Design and Utility

Storage Accessories

- Double-layer movable food basket
- Robust external handle
- Secure locking lid

Construction

High-density foam insulation • Smooth white finish
