

# SMT Feeder for 8x2mm Components

This SMT feeder is designed for accurate and reliable delivery of 8x2mm components. Its robust construction ensures enhanced production efficiency and reduced downtime in Surface Mount Technology (SMT) applications.

## Product Overview

### Precision SMT Component Feeder

This high-performance feeder is designed for efficient component delivery in Surface Mount Technology assembly lines. Built for precision, it ensures reliable placement accuracy for 8x2mm components. These units are available in original new, original used, and copy new conditions to suit various production requirements.

## Compatibility and Support

### Compatible Machine Series

FT, FV, FS, SS, CL

## Technical Specifications

### Supported Tape Widths

- 8mm
- 12mm
- 16mm
- 24mm
- 32mm
- 44mm
- 56mm
- 72mm
- 88mm

### Supported Component Pitches

- 8x2mm
- 8x3mm
- 8x4mm

## Availability

### Available Conditions

Original New • Original Used • Copy New
