

# SMT Feeder Storage Cart for Panasonic NPM-W Feeders

This SMT feeder storage cart is designed for Panasonic NPM-W series placement machines. It provides secure and organized storage for SMT feeders, enhancing efficiency and reducing downtime in SMT assembly environments.

## Product Overview

### Efficient SMT Feeder Management

This specialized storage cart is designed for the secure and organized handling of SMT feeders specifically for the NPM-W series placement machines. Engineered for professional SMT assembly environments, the cart helps streamline feeder management and significantly reduces production downtime. Its robust construction ensures long-lasting durability and protection for your precision placement components.

## Key Specifications

### Condition

Original New

### Model Number

N610118830AA

## Quality Assurance

### Quality Standards

Quality Assured, Competitive Pricing

## Compatibility

### Compatible Series

NPM-W Series Placement Machines
