

SMT Machine Feeder CL8X4

This SMT machine feeder accurately delivers electronic components for automated assembly. Its robust design ensures consistent performance in high-speed production environments.

Product Overview

High-Precision SMT Feeder

This SMT feeder is engineered to accurately and reliably deliver electronic components to pick-and-place heads for automated PCB assembly. Designed for high-speed production environments, it features robust construction and precise mechanical handling to ensure consistent component presentation. It is compatible with various component widths, facilitating efficient and seamless integration into automated SMT placement equipment.

Technical Specifications

Supported Feeder Models

Type	Part Number
CL8 * 2mm	KW1-M1300-020
CL8 * 4mm	KW1-M1100-030
CL12mm	KW1-M2200-301
CL16mm	KW1-M3200-100
CL24mm	KW1-M4500-015
CL32mm	KW1-M5500-015
CL44mm	KW1-M6500-015
CL56mm	KW1-M7500-015
FSI8 * 2mm	KJK-M1500-000
FSI8 * 4mm	KJK-M1500-011
FT8 * 2mm	KJK-M1500-010
FT8 * 4mm	KHJ-MC100-000

Operational Features

Key Features

High-Speed Compatibility, Precision Handling, Robust Mechanical Design, Electric Feeder
