

SMT Pick and Place Machine Nozzle FUJI NXT H04 5.0

This nozzle is designed for use in SMT pick and place machines. It ensures accurate and reliable component placement during PCB assembly.

Product Overview

High-Precision SMT Nozzle

This series of high-quality pick and place nozzles is engineered for compatibility with various automated assembly platforms. Designed for durability and precision, these nozzles facilitate accurate and reliable component placement during the PCB assembly process. Available in a wide range of tip sizes and configurations, they are built to optimize machine performance and maintain consistent output in high-speed production environments.

Compatibility

Series Compatibility

FUJI NXT H04, SMT Assembly Systems

Specifications

Available Nozzle Sizes

Size	Variation
0.3 - 20.0	Standard
1.3m - 1.8m	MELF
2.5G - 20.0G	With Rubber Pad

Full Part List

- AA0AS00 (1.0)
- AA06800 (1.3)
- AA0HL00 (1.8)
- AA0HM00 (2.5)
- AA0HN00 (3.7)
- AA0HR01 (5.0)
- AA08000 (7.0)
- AA08100 (10.0)
- AA08200 (15.0)
- AA08300 (20.0)
- AA0MZ00 (1.3m MELF)
- AA11R00 (1.8m MELF)
