

SMT Pick and Place Nozzle 504

This pick and place nozzle is designed for surface mount technology (SMT) machines. It ensures secure pick-up and precise placement of electronic components onto printed circuit boards.

Product Overview

Precision SMT Placement Nozzle

This precision-engineered nozzle is designed for high-accuracy component placement in SMT assembly lines. Compatible with a wide range of JUKI series machines, including the KE2010 to KE2080, it ensures reliable pick-up and deposition of electronic components. Built for durability in demanding industrial environments, this component helps maintain high-quality production standards.

Technical Specifications

Model Series	504
Outer Diameter	1.5 mm
Inner Diameter	0.9 mm

Compatibility

Compatible Machines	KE2010, KE2020, KE2030, KE2040, KE2050, KE2060, KE2070, KE2080, FX1, FX3
---------------------	--

Part Numbers

Reference Part Numbers

Machine Series	Part Number	Description
KE2010-2040	E3603-729-0A0	504 ASS'Y
KE2010-2040	E3656-729-000	504 TIP
KE2050-2080, FX1/3	40001342	504 ASS'Y
