

SMT Pick and Place Nozzle CN220

This pick and place nozzle is designed for use in SMT placement machines. The CN220 nozzle ensures reliable component handling and placement.

Product Overview

Precision SMT Pick and Place Nozzle

The CN220 series pick and place nozzle is a high-quality component designed for reliable handling in surface mount technology assembly processes. Engineered for compatibility with standard SMT placement machines, these nozzles ensure precision in component placement. Available in both original and copy types, they provide an adaptable solution for production maintenance and optimization.

Compatibility & Technical Data

Supported Models and Specs

Part/Type	Outer Dimension	Inner Dimension
TN220 (J9055073C)	3.6mm	2.2mm
TN140 (J9055072C)	2.2mm	1.4mm
TN070 (J9055071B)	1.2mm	0.65mm
TN045 (J9055070B)	0.75mm	0.38mm
TN030 (J9055069B)	0.8mm	0.3mm

Blacken Finish Option	Yes
