

SMT Placement Machine Nozzle Shaft for Yamaha YG12/YS12

This nozzle shaft is designed for Yamaha YG12/YS12 SMT placement machines. It ensures accurate component pickup and placement for optimal machine performance.

Product Overview

Precision Nozzle Shaft for SMT Assembly

This high-precision nozzle shaft is specifically designed for integration with YG12 and YS12 SMT placement machines. Engineered for durability, it ensures reliable and accurate component pickup and placement in high-speed assembly environments. This component is an essential spare part to maintain optimal machine performance and reduce production downtime.
