

SMT Placement Nozzle H08 1.0

This high-precision SMT placement nozzle is designed for accurate component handling. The H08 1.0 nozzle features robust construction and optimized airflow for secure pick-and-place operations.

Product Overview

High-Precision SMT Placement Nozzle

This high-precision surface mount technology (SMT) nozzle is engineered for accurate and reliable component handling during the PCB assembly process. Designed for optimal pick-and-place performance, the nozzle features robust construction to ensure an extended operational lifespan. It is compatible with a wide range of SMT placement platforms, facilitating efficient component placement across various PCB assembly requirements.

Technical Specifications

Nozzle Series	H08
Tip Size	1 mm

Compatibility & Variants

Available Nozzle Configurations

Part Series	Tip Size (mm)
AKPH	1.0, 1.3, 2.5, 4.0
ABHPN	0.7, 1.0, 1.3, 7.0
ABHDN	2.5, 3.7
ADBPN	0.7, 1.0, 1.3, 1.8, 2.5, 3.7, 7.0, 8.0, 10, 15, 17.5, 20
