Product Overview

High-Precision Placement Nozzle

This precision-engineered placement nozzle is designed for high-speed component assembly in surface mount technology (SMT) applications. Specifically built for seamless integration with advanced placement platforms, it ensures accurate and consistent pick-and-place performance. Its durable construction is optimized for demanding high-volume manufacturing environments, providing long-term reliability and exceptional operational efficiency.

Technical Specifications

Nozzle Series	CM402 120
Part Identifier	KXFX0384A00

Compatibility Reference

Available Nozzle Options

Model	Part Number
110	KXFX0383A00
115	KXFX04MTA00
115A	KXFX037NA00
120	KXFX0384A00
130	KXFX0385A00
140	KXFX0386A00
450	KXFX0387A00
