

SMT Stick Feeder for Samsung SM/CP Component Placement Machines

This SMT stick feeder is designed for Samsung SM/CP series component placement machines. It supports multiple voltages including 24V, 110V, and 220V.

Product Overview

Industrial-grade stick feeder configured for high-speed automated component placement.

High-Precision Stick Feeder

This SMT stick feeder is engineered for reliable and precise component delivery in automated surface mount technology assembly lines. Designed for durability and consistent performance, it features adjustable settings to optimize feeding for various component types. It supports multiple power configurations, making it a versatile addition to professional electronics manufacturing environments.

Technical Specifications

Physical Dimensions

500 mm

Length

110 mm

Width

85 mm

Height

Supported Voltages

24V, 110V, 220V

Construction Material

Aluminum

Compatibility

Compatible Machine Series

SM Series • CP Series
