

Soapstone Marking Set

This set of soapstone markers provides a reliable and precise marking solution for industrial and artistic applications. The hexagonal shape ensures a comfortable grip and prevents rolling.

Product Overview

Industrial Marking Precision

The JSPL-01 Soapstone Marker set provides a reliable and precise marking solution tailored for demanding industrial and artistic applications. Crafted from high-quality soapstone, these markers offer exceptional heat resistance and produce clear, visible lines on surfaces like metal and stone. Designed with a hexagonal shape to prevent rolling and improve grip, they are the ideal tool for welding, metalworking, and layout tasks.

Physical Properties

Shape	Hexagonal
Material	High-quality soapstone

Key Features

Performance Attributes	Heat Resistant, Visible Lines, Anti-roll Design, Precise Tip
------------------------	--

Application

Suitable Applications

- Welding
- Metalworking
- Layout Tasks
- Stone Marking
