

Soil Compactor with 196cc Engine

This soil compactor is designed for efficient soil compaction and asphalt preparation. It is powered by a 196cc engine and features a durable steel plate.

Overview

Professional Soil Compaction

This robust soil compactor is engineered for demanding construction and landscaping environments. Powered by a reliable 196cc gasoline engine, it delivers a powerful 26 kN impact force to ensure optimal soil and asphalt density. Designed for efficiency and ease of use, it features a foldable handle and a durable steel plate, making it an essential tool for site preparation and maintenance.

Performance Metrics

Impact Force

26 kN

Impact Force

Walking Speed

25 m/min

Max Walking Speed

Technical Specifications

Engine Displacement	196 cc
Engine Power	6.5 hp
Rotary Speed	5800 rpm
Max Compaction Depth	20 cm
Climb Ability	0-20 degrees

Dimensions

Plate Dimensions	620 x 450 mm
