Overview

Robust Soil Compaction Solution

The HZR106A Plate Compactor is a high-performance construction machine engineered for efficient soil and asphalt compaction. Equipped with a reliable 6.0 EX engine, this unit delivers consistent power for demanding job site conditions. Its durable steel base plate ensures optimal compaction results, while the ergonomic handle design enhances operator control and maneuverability across various surfaces.

Technical Specifications

Engine Power

6 HP

Engine Rating

Model Number

HZR106A

Engine Series

6.0 EX Premium

Features & Applications

Key Features

- Durable steel base plate
- Ergonomic handle for maneuverability
- Designed for granular and mixed soils
- High-quality construction materials

Best For

Soil Compaction, Asphalt Preparation, Foundation Work, Pathway Construction
