Product Overview

Professional Grade Soil Compactor

This robust plate compactor is engineered for high-performance soil and asphalt compaction in demanding construction environments. Featuring a high-output engine and a durable steel baseplate, it delivers consistent, high-frequency vibrations to consolidate granular materials effectively. Designed with operator comfort in mind, it includes ergonomic handling, a foldable design for transport, and a water tank system for dust suppression.

Technical Specifications

Engine Power

6 HP
Power Output

Noise Level

109 dB

Features & Capabilities

Compatible Materials

- Granular soils
- Mixed soils
- Asphalt
- Paving stones

Key Features

Water Tank for Dust Suppression • Foldable Handle • Steel Baseplate • Ergonomic Design

Ideal Applications

Road Maintenance, Trench Compaction, Foundation Preparation, Asphalt Paving, Landscaping

Compliance

Certifications

ISO9001
