

Soil Tiller for Garden and Farm Use

This robust tiller is designed for efficient soil preparation and cultivation. The adjustable tines allow for customizable tilling depths and widths, making it suitable for different soil types and garden sizes.

Overview

Versatile Tilling Solution

This robust tiller is engineered for efficient soil preparation and cultivation in both garden and farm environments. Powered by a reliable 7hp gasoline engine, it offers professional-grade performance with two forward and one reverse gear for superior maneuverability. Its durable cast iron gearbox and versatile coupling system make it an essential tool for landscapers and gardeners seeking dependable soil management.
