

Solar Dragonfly Garden Lights with Flexible Stems

Solar-powered dragonfly garden lights feature flexible stems and a stone-look base with an integrated solar panel. These lights add a decorative touch to outdoor spaces, illuminating with a soft glow at night.

Product Overview

Solar-Powered Decorative Illumination

These solar dragonfly garden lights are designed to enhance outdoor spaces with a decorative, soft ambient glow. Featuring flexible stems for customizable positioning, the unit is anchored by a durable stone-look base. An integrated, high-efficiency solar panel ensures autonomous operation by charging throughout the day for night-time illumination.

Technical Specifications

Power Source	Solar energy
Design Features	Flexible Stems, Stone-look Base, Weather Resistant

Usage
