

# Solar LED Street Light

This LED solar street light is designed for outdoor illumination, offering an energy-efficient and sustainable lighting solution. It integrates a solar panel for charging, eliminating the need for external power sources.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Solar Street Lighting

This LED solar street light provides a sustainable and energy-efficient outdoor lighting solution for roadways, parking lots, and pathways. Featuring a robust die-casting aluminum shell with IP67 waterproofing, it is built to withstand harsh outdoor conditions. The system includes an intelligent charging controller and a high-capacity lithium battery, ensuring reliable operation for up to 12 hours on a single charge.

## Technical Specifications

Available Wattage	10W, 20W, 30W, 40W
Charging Time	4.5 hours
Continuous Lighting Time	12 hours
Rainy Day Autonomy	3 days

## Features & Construction

### Ingress Protection

IP67 • Waterproof • Anti-thunder

### Key Features

- Polysilicon solar panel
- Smart quick charge technology
- Automatic brightness adjustment
- Battery level indicator
- Charging status light
- Dual-head design

### Material

Die-casting aluminium
