

# Solar LED Street Light

This solar LED street light offers efficient and reliable outdoor illumination. It features an integrated solar panel, high-capacity battery, and long-lasting LED light source with automatic dusk-to-dawn functionality.

## ADDITIONAL IMAGES

## Product Overview

### Reliable Sustainable Lighting

This all-in-one solar LED street light offers a high-efficiency lighting solution with zero electricity costs throughout the year. Built with durable die-casting aluminum, it provides superior heat dissipation and weather resistance for long-term outdoor performance. The integrated intelligent sensor and time control system ensure reliable, autonomous operation from dusk to dawn, even during extended rainy periods.

## Technical Features

Key Highlights	All-in-one Design, Intelligent Light Sensor, Time Control, Weather Resistant, Long Life Span
Battery Technology	Ternary polymer lithium battery
Rainy Day Endurance	3 Days

## Models and Dimensions

### Model Specifications

Model	Dimensions (mm)
LPSTL-18B01-SS	N/A
LPSTL-25B01-SS	240*450*125
LPSTL-45B01-SS	335*125*510
