

Solar Powered Digital Bathroom Scale

This digital bathroom scale is solar-powered for sustainable operation. It features a clear glass platform, a digital display, and a high-precision strain gauge sensor for accurate weight measurements.

Overview

Sustainable Weight Management

This solar-powered digital bathroom scale combines precision engineering with eco-friendly design. Utilizing advanced strain gauge sensor technology, it ensures accurate weight monitoring for personal health management. Its slim, glass-platform construction makes it a convenient and space-saving addition to any home environment.

Technical Specifications

Maximum Weight Capacity	180 kg
Measurement Sensitivity	100 g
