

Solar Powered Garden Lamp Post

This decorative garden lamp post is equipped with an integrated solar panel. Its design incorporates two spherical lamps and a durable, weather-resistant green metal frame.

Product Overview

Elegant Solar Illumination

This decorative garden lamp post provides an efficient, eco-friendly lighting solution for outdoor spaces. Featuring an integrated solar panel, it harnesses renewable energy to power two spherical lamps, eliminating the need for complex wiring. The sturdy, weather-resistant green metal frame ensures long-lasting durability, making it an ideal choice for enhancing gardens, pathways, and landscape designs.
