

# Solar Powered Garden Lawn Lamp

This solar-powered lawn lamp provides ambient lighting for gardens and pathways. It features a weather-resistant construction and automatic light control for reliable performance.

## Product Overview

### Sustainable Outdoor Lighting

The XNY-TC-08 lawn lamp utilizes renewable solar energy to provide efficient, reliable illumination for outdoor spaces. Designed with a focus on durability and aesthetics, this lamp features a corrosion-resistant body and high-brightness LED technology. It offers an eco-friendly lighting solution that automatically adjusts based on ambient light conditions, making it ideal for both residential and commercial landscaping.

## Technical Specifications

Model Number	XNY-TC-08
Product Code	61D944BCCB
Key Features	Solar Powered, Weather Resistant, Corrosion Resistant, Automatic Control, Long Life
Light Source	High-brightness LED

## Performance Metrics

### Operational Performance
