

Solar Powered Garden Pathway Light

This solar-powered outdoor garden pathway light provides illumination for gardens, pathways, and yards. Its built-in solar panel charges during the day and automatically turns on at night.

Product Overview

Solar Powered Garden Pathway Light

This solar-powered outdoor garden pathway light offers a sustainable and energy-efficient lighting solution for gardens, pathways, and residential yards. Featuring a built-in solar panel, the unit automatically charges during daylight hours and illuminates once dusk falls. With its durable construction and weather-resistant design, it provides reliable performance without the need for complex wiring or external power sources.

Technical Features

Installation	Tool-free wireless installation
Power Source	Integrated Solar Panel
Automation	Automatic Charging, Automatic Night Sensor

Durability

Key Attributes

Weather Resistant • Durable Construction • Energy Efficient
