

Solar Powered Garden Pathway Light

This solar-powered garden pathway light provides ambient illumination for outdoor spaces. Its durable, weather-resistant plastic construction includes a solar panel, rechargeable battery, and LED light source.

Product Overview

Solar Powered Pathway Illumination

This solar-powered garden pathway light is designed to provide reliable ambient illumination for outdoor environments. Featuring durable, weather-resistant construction, it is suitable for year-round use in various landscapes. The system operates autonomously, charging via sunlight during the day and automatically activating at night to enhance safety and aesthetic appeal without the need for external wiring.

Technical Specifications

Power Source	Solar Panel
Light Source	LED
Installation	Integrated Spike

Key Features

Key Features	Weather-Resistant, Energy-Efficient, Automatic Operation, Wireless
Material	Durable Plastic
