

Solar Powered Garden Stake Light

This solar-powered garden light features a traditional lantern design with a black finish. It includes a stake for easy installation, providing soft, even illumination for pathways and gardens.

Product Overview

Solar Powered Garden Stake Light

This solar-powered garden stake light is an efficient and sustainable solution for outdoor landscape illumination. Designed with a traditional lantern aesthetic, it features a high-efficiency mono solar cell that charges during the day to provide automatic dusk-to-dawn operation. The unit is fully waterproof and includes a sturdy stake for easy installation in pathways, gardens, or outdoor living spaces.
