

Solar Powered Garden Stake Light

This solar-powered garden stake light provides decorative illumination for outdoor spaces. It features a solar panel that charges during the day and automatically activates the LED light at dusk.

Product Overview

Sustainable Outdoor Illumination

This solar-powered garden stake light is a versatile solution for decorative outdoor lighting, eliminating the need for wiring or external power sources. It automatically harvests energy via a top-mounted solar panel to charge an internal battery, ensuring reliable illumination from dusk onwards. Featuring a durable, weather-resistant plastic construction and a faceted lens, it offers both aesthetic appeal and practical performance for pathways, patios, and landscaping.

Key Features

Core Benefits

- Solar-powered operation
- Automatic dusk-to-dawn activation
- Weather-resistant construction
- Tool-free garden stake installation
- No external wiring required

Technical Details

Material	Durable weather-resistant plastic
Lens Design	Clear, faceted lens for light dispersion

Certifications & Compliance

Certifications	Weather-Resistant, Energy-Efficient
