

Solar Powered Lawn Light

This solar-powered lawn light provides ambient lighting for gardens, pathways, and lawns. Its stake design allows for easy installation, and the integrated solar panel efficiently converts sunlight into electricity.

Product Overview

Solar Powered Landscape Lighting

This solar-powered lawn lamp is designed for outdoor use, providing reliable ambient lighting for gardens, pathways, and lawns. It features a built-in high-efficiency monocrystalline solar panel that charges during the day and automatically activates the LED light at dusk using a photocell sensor. Constructed from durable, weather-resistant materials, the lamp ensures longevity in various environmental conditions, while its simple stake design allows for easy installation and repositioning.

Technical Specifications

Solar Cell Technology	Mono solar cell
Light Source Type	LED
Available Light Colors	White, Amber
Battery Capacity	600 mAh
Battery Type	1pc AA rechargeable

Performance Metrics

Key Performance Metrics

10 Hours Max Illumination Time	117 mm Diameter	375 mm Height
