Product Overview

Solar-Powered Efficiency

This versatile solar-powered LED flood light series offers high-performance outdoor illumination with four wattage options ranging from 25W to 100W. Featuring a durable ABS housing and high-efficiency polycrystalline solar panels, these lights are designed for reliable security and area lighting in various climates. Each unit includes a remote control for convenient operation and supports both solar and USB charging for maximum flexibility.

Key Features

Remote Control Included, Dual Charging Support, Weather Resistant, LED 2835 SMD
