

Solar Powered LED Garden Light

This solar-powered garden light illuminates pathways and landscapes. It features a stake design for easy installation and an LED light for energy efficiency.

Product Overview

Solar Powered Garden Lighting Solution

This solar-powered garden light is an efficient and durable solution designed for illuminating pathways, gardens, and landscapes. It features an integrated solar panel that charges the internal battery during the day and automatically activates the LED light at dusk. With its robust stake design and weather-resistant construction, it offers a simple, long-lasting installation for various outdoor environments.

Technical Specifications

Light Source	LED
Power Source	Solar Panel
Operation	Automatic (Dusk-to-Dawn)

Physical Characteristics

Material	Durable Plastic
Finish	Black
Installation	Ground Stake

Key Features

Key Benefits	Energy Efficient, Weather Resistant, Easy Installation, Long Lifespan
