Product Overview

Sustainable Portable Illumination

This solar-powered LED torch offers a versatile and eco-friendly lighting solution for both emergency and daily use. Featuring a high-power 1W LED, it provides reliable brightness in a portable, ergonomic design. The unit supports dual-charging methods, utilizing either solar energy or alternating current, ensuring you are never left without light.

Technical Specifications

Light Source Type	1W High-power LED
Battery Capacity	400 mAh
Battery Voltage	4 V
Battery Type	Lead-acid

Features & Modes

Light Modes

- Strong light
- Weak light

Key Benefits

Eco-friendly • Portable • Durable Construction

Charging Methods	Solar Energy, Alternating Current (AC)
