

Solar Powered Outdoor Wall Light with Motion Sensor

This outdoor wall light is solar-powered and designed for energy efficiency. It includes a motion sensor that activates the light when movement is detected.

Product Overview

Solar Powered Wall Lighting

The XLTD-249D is an efficient, solar-powered outdoor wall light designed for effortless installation without the need for complex wiring. It features an integrated solar panel that charges throughout the day to provide bright, reliable LED illumination for up to 8 hours. Enhanced with a PIR motion sensor and automatic dusk-to-dawn functionality, this unit offers both convenience and security for any outdoor space.
