

Solar Powered Pumpkin Lantern

This solar-powered pumpkin light features a jack-o'-lantern design with triangular eyes and a toothy grin. It automatically illuminates at dusk, providing festive, energy-efficient lighting for Halloween or other seasonal decorations.

Product Overview

Solar Powered Festive Lighting

This solar-powered pumpkin lantern features a classic jack-o'-lantern design, ideal for Halloween and seasonal displays. It incorporates an energy-efficient monocrystalline solar panel to charge during the day and automatically illuminates at dusk. Constructed from durable materials, this unit is suitable for both indoor and outdoor placement, offering a festive and convenient lighting solution.
