

Solar Powered Stair Light

This solar step light provides reliable illumination for outdoor stairways and pathways. Featuring a durable construction, this light is designed to withstand various weather conditions.

Product Overview

Solar Powered Stair Light

The DR-0270 solar step light provides reliable illumination for outdoor stairways and pathways. Featuring a durable construction, this light is designed to withstand various weather conditions. Its integrated solar panel efficiently converts sunlight into energy, charging the internal battery for nighttime operation. The light automatically activates at dusk, providing a safe and well-lit environment for both residential and commercial applications.

Technical Features

Model Number	DR-0270
Power Source	Solar Energy
Operation Mode	Automatic dusk-to-dawn sensor

Application

Durability

Weatherproof • Durable Construction

Recommended Use	Residential, Commercial, Stairways, Pathways
