

# Solar Powered Stair Lighting

These solar step lights are designed to enhance outdoor staircases with efficient lighting. They automatically illuminate at dusk and are constructed with durable materials for weather resistance.

## ADDITIONAL IMAGES

## Product Overview

### Solar Powered Stair Lighting

The DR-0270B solar wall light is a sophisticated lighting solution designed to enhance safety and ambiance for outdoor staircases, patios, and garden pathways. This unit features a completely wireless installation process, allowing for seamless mounting on various surfaces without complex wiring. Equipped with an integrated solar panel, the system efficiently harvests energy during the day to ensure consistent, automatic dusk-to-dawn illumination.
