

Solar Powered Table Light

This solar table light provides ambient illumination for indoor or outdoor spaces. Featuring an integrated solar panel, it charges during the day and automatically turns on at dusk.

Product Overview

Sustainable Ambient Lighting

This solar-powered table light provides an elegant and energy-efficient lighting solution for both indoor and outdoor environments. Designed with a sleek aesthetic, it integrates a high-efficiency monocrystalline solar panel to harness energy during the day for automatic illumination at dusk. Its durable construction makes it an ideal addition to patios, decks, or bedside tables seeking a sustainable glow.

Technical Specifications

Dimensions	19.1 x 19.1 x 36 cm
Light Source	1 Bright SMD white LED

Power System

Battery Type	3XAAA NI-MH
Battery Capacity	600 mAh
Solar Panel Technology	Monocrystalline

Product Features

Key Features	Solar Powered, Automatic Dusk Sensor, Energy Efficient, Indoor/Outdoor Use
