Product Overview

Solar Fountain and Aeration System

This high-efficiency solar water pump and oxygenator kit is designed to provide sustainable aeration and decorative fountain spray for garden ponds and water features. Powered directly by sunlight, it eliminates the need for grid electricity, making it an eco-friendly and cost-effective solution. Available in multiple models, these units offer reliable performance for various pond sizes with convenient features like adjustable flow and long-reach cabling.

Performance Specifications

Model Performance Data

Model	Power	Max Flow	Max Head
SY20-1360LPH	20W	1360LPH	2.1m
SY10-610LPH	10W	610LPH	1.7m
SP5-470LPH	5W	470LPH	0.9m
SP2-175LPH	2W	175LPH	0.7m

Cable Length	5 m
Flow Adjustable	No

Logistics

Packaging & Shipping

Model	Weight	Carton Qty
