

Soldering Iron Stand with Adjustable Clamp

This soldering iron stand is designed to securely hold a soldering iron when not in use. Constructed from durable metal, it features an adjustable clamp for attachment to a workbench.

Product Overview

Professional Soldering Support

This soldering iron stand offers a secure and stable solution for managing your tools during electronics repair and assembly. Featuring a durable metal construction with a sleek chrome finish, it is engineered for longevity in busy work environments. The adjustable clamp ensures the stand remains fixed to your workbench, effectively preventing accidental falls or damage while the iron is not in use.
