

Solderless PAL Plug

This solderless PAL plug allows for quick and easy cable termination. It features robust construction for reliable signal transmission.

Product Overview

Solderless PAL Plug Solution

This Solderless PAL plug is engineered for efficient and reliable cable termination, eliminating the need for complex soldering processes. Designed with robust construction, it ensures stable signal transmission for professional audio and video installations. Its user-friendly design makes it an ideal choice for quick, secure, and durable connections in various multimedia applications.

Technical Specifications

Connector Standard

PAL

Connection Method

Solderless

Applications

Audio, Video, Signal Transmission
