

Solid Wood Bar Sample Set

This set includes solid wood bars in light, medium, and dark tones. These samples are useful for evaluating wood colors and material characteristics.

Product Overview

Premium Solid Wood Sample Set

This sample set features three high-quality rectangular bars showcasing a range of professional finishes. Designed for B2B buyers and designers, these samples allow for accurate color matching and material assessment across light brown, reddish-brown, and dark brown tones. The solid construction ensures a durable representation of the final material's texture and aesthetic appeal.
