

Sound Therapy Night Light

This night light features built-in soothing music options to promote relaxation. It can be powered by dry batteries or USB.

Product Overview

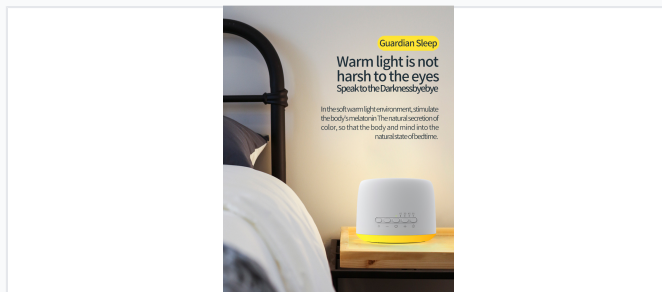

Sleep-Enhancing Sound Therapy Night Light

This innovative sleeping instrument combines ambient lighting with sound therapy to create an optimal environment for rest. Featuring 36 built-in natural sound effects and adjustable warm lighting, it helps mask external noise and promotes natural melatonin secretion. Designed for convenience, the device is portable with dual power options and includes a built-in timer for automated shut-off.
