

Soy Milk Maker with Stainless Steel Interior

This soybean milk maker efficiently prepares fresh soy milk. It features durable construction with a stainless steel interior, a plastic exterior with a floral pattern, and automatic shutoff features for safety.

Product Overview

Professional Soy Milk Preparation

This 1.5L soy milk maker is engineered for versatility and safety, catering to households of 2-4 people. Featuring a robust stainless steel interior and intelligent grinding technology, it effortlessly processes both dry and wet beans for perfect texture every time. With multiple safety mechanisms including overheat protection and anti-overflow sensors, it provides a reliable and convenient solution for daily nutrition.

Technical Specifications

Key Performance Metrics

800 W

Heating Power

200 W

Motor Power

1.5 L

Capacity

Electrical Requirements

Parameter	Specification
Rated Voltage	220V
Rated Frequency	50Hz

Features

Operating Modes

Wet Beans, Dry Beans, Nutrition Rice, Corn Juice, Juice, Auto Wash

Safety & Design

Security Protocols

- Automatic overflow prevention
- Dry burning protection
- Job lock protection
- Double insulation / Hot prevention design

Design Notes

Stainless Steel Interior • Noise Reduction • High Quality Grinding Blade
