

SPCC Metal U-Yoke for Audio Components

This U-yoke is made from SPCC and suitable for audio components. It features an outer diameter range of 18mm to 60mm and a thickness range of 1.5mm to 6.0mm.

Product Overview

Precision Engineered U-Yoke

This SPCC metal U-yoke is a critical precision component designed for high-performance audio drivers and magnetic circuits. Constructed from cold-rolled steel, it provides the structural integrity and magnetic permeability required for loudspeaker assembly. The component features a specialized surface treatment for durability, ensuring long-term reliability in sensitive electronic audio systems.

Technical Specifications

Outer Diameter Range

18 mm

Minimum OD

60 mm

Maximum OD

Thickness Range

1.5 mm

Minimum Thickness

6 mm

Maximum Thickness

Material and Finish

Base Material	SPCC (Cold Rolled Steel)
Surface Treatment	Sand blasting & Plating (Cr3+)

Compliance

Compliance Certifications	RoHS 2.0
