

# Spherical Pendant Light Fixture

This decorative lighting fixture is designed for interior applications. It features a spherical design with a metallic upper hemisphere and a textured, light-diffusing lower hemisphere, providing ambient illumination.

## ADDITIONAL IMAGES

## Product Overview

### Modern Spherical Illumination

This spherical pendant light fixture combines minimalist aesthetics with advanced lighting technology. Featuring a unique dual-material construction, it utilizes high-quality acrylic infused with fine crystal sand to deliver a bright yet soft, non-dazzling glow. The fixture is finished with a durable double-paint process, ensuring long-term oxidation resistance and uniform color quality.

## Technical Specifications

### Production Quality

- Mold-based production for consistency
- Double-paint surface process
- Oxidation-resistant coating

### Light Source

LED

### Materials

High-Quality Acrylic, Crystal Sand, Premium Metallic Finish

## Design Features

### Available Finishes

Bronze • Silver • Copper • Gold

### Key Features

- Energy-saving LED technology
- Glare-free light diffusion
- Minimalist spherical geometry
- Utility model patent design
