Product Overview

Professional Abrasive Spindle Pads

These professional-grade spindle pads are engineered for precision polishing, grinding, and surface preparation tasks. Designed for versatility, they support quick-change abrasive discs, ensuring efficient performance across automotive, furniture, and precision instrument industries. Their durable construction guarantees consistent pressure distribution, leaving surfaces clean and polished as if they were brand new.

Key Features

Key Benefits

- Delivers clean and bright surface finishes
- Effective removal of small scratches
- Compatible with standard rotary tools and die grinders
- Quick-change attachment system for reduced downtime

Technical Data

Technical Specifications

Size	Thread	Type	Max RPM
34 mm	1/4"-20	TS/TR	25000
45 mm	1/4"-20	TS/TR	25000
69 mm	1/4"-20	TS/TR	25000
98 mm	1/4"-20	TS/TR	16800

Industries

Applicable Industries

Automotive, Furniture Manufacturing, Musical Instruments, Jewelry, Precision Instruments, Plastic Surface Treatment, Kitchenware

Ordering Information

Minimum Order Quantity

300 pcs
