

# Spiral Barrel Hair Curling Iron

This hair curler features a spiral barrel design for creating defined curls. It has a ceramic coating for even heat distribution and adjustable temperature settings.

## Product Overview

### Professional Spiral Styling

This professional hair curler features a specialized spiral barrel design, engineered for creating defined, consistent curls with ease. The high-performance ceramic coating ensures even heat distribution across the barrel, helping to minimize hair damage during styling. Designed for salon-quality results, it combines safety features like a cool tip and built-in stand with ergonomic handling for a comfortable styling experience.

## Technical Specifications

Barrel Type	Spiral
Coating Material	Ceramic
